Muhammad Talha

Backend Developer
Karachi, Pakistan | 0315-2073956 | talhazahid.se@gmail.com

PROFESSIONAL SUMMARY

Passionate and detail-oriented Backend Developer currently pursuing a Bachelor's degree in Software Engineering at the University of Karachi. Skilled in Python, Django, FastAPI, PostgreSQL, and REST API development. Experienced in building scalable backend systems, implementing authentication mechanisms, and integrating third-party APIs. Quick learner with a strong interest in backend development, cloud technologies, and software engineering.

TECHNICAL SKILLS

Languages: Python, JavaScript, Java, C++, HTML, CSS
Frameworks & APIs: Django, FastAPI, REST API
Tech Stack: Python, Django, SQLite
Databases: PostgreSQL, MySQL
Auth & Security: JWT Authentication, Google OAuth, Role-Based Access Control (RBAC)
Tools & Concepts: Git, Email Notifications, API Integration, Backend Architecture
Languages (Spoken): English, Urdu

EXPERIENCE

Backend Developer | Academic & Personal Projects 2026 – Present

- Built REST APIs with authentication and role-based access control (RBAC) to manage user permissions.
- Worked with PostgreSQL, MySQL, and Elasticsearch for data management and search functionality.
- Created projects including a resume screening system, authentication system, and real-time chat application.
- Collaborated in university team projects, improving debugging, problem-solving, and backend architecture skills.

PROJECTS

TalentRank AI | Resume Screening System 2026

- Developed an AI-powered resume screening backend using Python, FastAPI, and PostgreSQL.
- Implemented resume parsing, skill extraction, Elasticsearch-based search, and candidate ranking features.
- Added JWT authentication, Google OAuth login, and role-based access control (RBAC).
- Integrated email notification system for user and recruiter communication.

Real-Time Chat Application | Personal Project 2026

- Built a real-time chat application using WebSockets and FastAPI.
- Implemented instant one-to-one messaging functionality with persistent communication handling.
- Improved understanding of asynchronous programming and real-time backend systems.

Nearby Places Recommender | Personal Project 2026

- Developed a location-based recommendation system to suggest nearby places and services.
- Implemented filtering and search functionality to improve recommendation accuracy.
- Worked with APIs and backend logic for handling location and recommendation data.

AI Chatbot Application | Personal Project 2026

- Built an AI-powered chatbot application capable of handling user queries interactively.
- Integrated AI APIs for generating intelligent responses and conversation flow.

- Focused on backend API handling, request processing, and chatbot response management.

EDUCATION

Bachelor of Software Engineering Jan 2025 – Dec 2028 University of Karachi

Intermediate – Pre-Engineering 2022 – 2024 Scholars Higher Secondary School

Matriculation – Science 2020 – 2022 Premier Grammar School
